Installing the 20122-A Rear Alternator Support Bracket.
Use two (TP3-.400) Spacer Tubes between the bracket and the water pump. Install with two 3/8 x 3” SHCS (S266).
Mount the main front Alternator Bracket and install the Alternator between the front and rear brackets. Use the provided 3/8 x 2-3/4” SHCS (S264) to mount the Alternator between the two brackets.
